

Suomen maan- mittausinsinöörien liitto ry MIL Finnish Association of Geodetic and Land Surveyors

President Mikael Still

Member Association and Forum of Regional Bodies
FIG eWorking Week 20-25 June 2021

Students

Master's level:

- At the Aalto University the Department of Built Environment has been one of the most popular departments in recent years. Geoinformatics, though, is less popular

Bachelor's level:

- Education at three Universities of Applied Sciences, a good amount of new students
- NLS supports the education in both Master's and Bachelor's level

Covid-19

Working life:

- Working from home since March 2020
- A lot of new routines, gigant digital leaps
 - Some will probably be permanent

Association:

- National Event in March 2020 cancelled => Economical loss
- On the other hand some expenses have been saved

Women in surveying

CLGE GA November 2021 in Lapland, Finland:

- Theme: Women in Surveying
- At least 50 % of the student's are female

Note:

- The candidates for FIG VP and commission chair positions were all male => This theme is still important, not only this year, but also the years to come
